

GGG 270HP Woven

GGG 270HP is a woven geotextile made of 100% high tenacity polypropylene yarns which are woven into a stable network such that the yarns retain their relative position. GGG 270HP resists ultraviolet deterioration, rotting, biological degradation, naturally encountered basics and acids. Polypropylene is stable within a pH range of 2 to 13. GGG 270HP meets or exceeds the physical property values listed below:
