

GGG Easy Tackifier

GGG Easy Tackifier is specifically formulated polymer that binds hydromulch fibers to the soil. GGG Easy Tackifier should reduce the friction of the slurry in your hose and tank and may improve your shooting distance. GGG Easy Tackifier is designed to increase water holding capacity and improve seed germination.

GGG Easy Tackifier is applied at the rates of 3 lbs per acre, or one ounce per 1,000 square feet. GGG Easy Tackifier comes in convenient resealable 6 lb containers. There are 4 bottles per case.
